General Rules and Regulations

General

1. All rules stated and posted by the rink are to be followed.
2. Students must heed all warnings from the rink staff.
3. Never go on the ice when your balance is impaired from sickness, medication or alcohol.
4. Bring dedicated shoes for curling. Change your shoes prior to entering the ice in order to keep the ice clean.

Safety on the Ice

5. Ice is slippery. Curlers should take note of the ice conditions and be very careful while moving or standing on the ice. If the curler is careless, a fall can result in a serious injury
6. Be careful of your balance when stepping on the ice. Always step on the ice with your “gripper” foot first and then put your “slider” foot on the ice.
7. Curlers should use a slider when delivering or waiting to deliver a curling stone. It should be removed (or covered with a gripper for curling shoes) after a player is leaving the ice or the delivery turn is over.
8. Never stop a curling stone with your hand. Your fingers can be crushed, especially if the stone hits another while you are trying to stop it. Use your broom to stop a stone.
9. Never use your feet to stop a curling stone as you can lose your balance and fall. Again, use your broom to stop a curling stone.
10. Always carry a broom with the broom head down, which you can use to avoid or break a fall in case of losing your balance.
11. While sweeping, if you cannot keep up with a fast shot, STOP! Do not risk a fall on the ice.

Ice Curling is an Olympic sport in which players slide curling stones on ice towards a target area that is segmented into four concentric circles. The two teams, each consisting of four players, take turns to slide a polished granite curling stone, also called a rock, across the ice towards the 'house', which is the name given to the circular target marked on the ice. The whole game usually consists of eight or ten 'ends'. In each end, points will be scored for the stones resting closest to the centre of the house when both teams have thrown all of their stones.

During the delivery of a stone, a curler can induce a curved path by causing the stone to slowly turn as it slides, and the path of the stone may be further influenced by two sweepers using brooms to alter the state of the ice in front of the stone. A great deal of strategy and teamwork goes into choosing the ideal path and placement of a stone for each situation, and the skills of the curlers determine how close to the desired result the stone will achieve. This gives curling its nickname of "chess on ice".

冰壺 (Ice Curling) 是冬季奧林匹克運動會項目，運動員需利用以花崗岩石塊製成的「石壺」，於冰上朝著以四個同中心圓組成的目標區域滑出石壺。冰壺比賽一般以八至十局為限，參與的兩隊，各有四名隊員，需在冰上輪流朝著圓形的目標區放送石壺。而於每一局中，兩隊運動員放出所有石壺後，距離本壘中心最接近的石壺將會獲得分數。

運動員利用技巧放出石壺，使石壺緩慢旋轉並以彎曲的路徑滑行，負責石壺前方之持刷隊員可以在冰上刷冰，改變石壺前方冰面的狀態以引領移動中石壺之滑行路徑。冰壺運動能夠充份發揮團隊合作與施展個人技巧，每隊放出石壺時，均須審視情況，部署策略及選擇最佳路徑，使石壺最終停靠在預定的目標位置上。故此，冰壺有「冰上國際象棋」的綽號。
